

OTHMAN ALABED

Data Analyst | Business Analyst | MIS Graduate | Power BI | SQL | Python

Doha, Qatar | +974 5084 3220 | 1othmanalabed1@gmail.com | linkedin.com/in/othman-alabed | github.com/Othmanxo

PROFESSIONAL SUMMARY

Management Information Systems graduate (expected Jun 2026) with experience across data analytics, business development, technology research, and B2B growth. Applied Excel, Power BI, SQL, Python, CRM tracking, and market research to convert complex information into decision-ready insights. Strong fit for entry-level Data Analyst, Business Analyst, BI Analyst, IT Analyst, Product Analyst, and Graduate Consultant roles.

TECHNICAL SKILLS

Analytics: Data cleaning, exploratory analysis, KPI reporting, dashboarding, business intelligence, market research, funnel analysis, stakeholder insights

Tools: Excel (PivotTables, Power Query), Power BI, SQL, Python (pandas), Git/GitHub, CRM/pipeline tracking

Methods: Data visualization, trend analysis, segmentation, basic statistics, reproducible reporting, network/knowledge-graph analysis

PROFESSIONAL EXPERIENCE

CERN — IT Summer Student, Data & Analytics

Jul 2025 – Aug 2025

- Analyzed bibliometric and research-metadata datasets from OpenAlex to identify emerging patterns in quantum-computing research.
- Built Python-based analysis workflows using pandas and visualization methods to track publication trends, concept emergence, and knowledge-graph relationships.
- Prototyped an early-warning analytics approach using entropy trajectories and network dynamics; translated findings into a poster and final report for a technical research audience.

DineNorder — Sales & Business Development Manager, Data-Driven Growth

Dec 2024 – Sep 2025

- Conducted on-site customer discovery with Doha restaurants and cafes to validate product-market fit and convert buyer pain points into prioritized product and go-to-market actions.
- Built and managed a structured CRM outreach pipeline to track leads, follow-ups, funnel status, and partner engagement across B2B prospects.
- Performed market and competitor research across restaurant technology, digital ordering, and customer-engagement solutions to strengthen sales messaging and positioning.

MyFatoorah — B2B Sales Representative

Oct 2020 – Feb 2022

- Increased customer acquisition by 56% over two years through structured prospecting, pipeline tracking, and follow-up discipline.
- Identified growth opportunities across 10 target sectors through market segmentation and customer research, contributing to a 35% increase in B2B leads.
- Communicated payment-solution value propositions to merchants and supported B2B relationship development, onboarding, and account growth.

LEADERSHIP

Hult Prize, Qatar University — OnCampus Program Director

Feb 2022 – Feb 2023

- Led execution of a campus entrepreneurship program with 35+ teams and 22 workshops; coordinated sponsors, judges, mentors, and partners.
- Coached student teams on market analysis, value proposition design, and pitch development; supported outcomes including incubation under Qatar Development Bank.
- Restructured outreach and sponsor coordination after funding disruption, helping maintain program delivery and stakeholder confidence.

SELECTED ANALYTICS PROJECTS

- Data Salary Dashboard (Excel, GitHub): Built an interactive dashboard for salary trends and role comparisons; published project assets on GitHub.
- Research Trend Analytics (Python, OpenAlex): Created visual summaries of publication trends, concept emergence, and network dynamics from research metadata.
- AI Literacy & Employability Analysis (Excel / Analytics Workflow): Analyzed survey data linking perceived AI literacy, objective AI knowledge, AI usage, and employability indicators.

EDUCATION

Qatar University, Doha — B.A. Management Information Systems (MIS)

Expected Jun 2026

Relevant focus: Business analytics, data analysis, information systems, dashboards, databases, and technology-enabled decision-making.
